POST ADDENDUM: RFP PUR26-014 ADDENDUM NO. 1

ISSUED BY: **PRINCE GEORGE'S COUNTY PUBLIC SCHOOLS** **OFFICE OF PURCHASING AND SUPPLY** **13300 OLD MARLBORO PIKE, ROOM 20** **UPPER MARLBORO, MARYLAND 20772-9983**	**Date of this Addendum:** **March 4, 2026** No. of Pages: 2	**Proposal Submissions:** **March 20, 2025, 11:00 AM, Eastern Standard Time**
	RFP No.: PUR26-014	**RFP Issuance Date: February 13, 2026**
	TITLE: Electronic Records Compliance System	

TO ALL PROSPECTIVE OFFERORS AND OTHER RECIPIENTS OF SOLICITATION DOCUMENTS

This Addendum is hereby made a part of the Contract Document that will be the basis of the Contract. This Addendum is issued to change the original Solicitation Documents issued February 13, 2026. Prospective Offerors are required to attach this Addendum to your Contract Documents. Receipt of this Addendum must be acknowledged in the Proposal Document (see Appendix A). Failure to do so may subject the Offerors disqualification.

THE FOLLOWING RFP PROVISIONS ARE HEREBY CHANGED AS FOLLOWS:

PROPOSAL SUBMISSION DATE:

1) Addendum No. 1 includes the official responses to the questions received from potential offerors.

Question	Response
1. To ensure our solution aligns effectively with PGCPS's existing technology environment, could the Office of Safety and Security Services provide guidance on which current platforms should be prioritized for integration (e.g., Microsoft 365, Google Workspace, HR systems, Student Information Systems, or physical access/badge systems)?	Currently, information is stored and managed across platforms including Microsoft 365, Google Workspace (e.g., Google Docs), and Microsoft Excel. Integration with these existing systems should be prioritized to ensure alignment with PGCPS's current technology environment.
2. Additionally, are there preferred approaches for user access management and data synchronization that the proposed solution should support in order to meet PGCPS security, privacy, and operational standards?	PGCPS prefers the ability to upload data sets directly into the system rather than rely on manual data entry. All data should be stored on-site to ensure compliance with PGCPS security, privacy, and operational standards. Proposed solutions should support secure data upload functionality, controlled user access management, and reliable data synchronization processes aligned with these requirements.
