### **Q&A:**

Committee:

Dr. Goldson asks: “Can you please provide more information or expound on potential lead time issues, if any, that the program is experiencing?”

Mr. Washington responds: “We are watching the lead times for the mechanical systems as those have a lot of component parts and switch gears but nothing has been presented to date that is impacting the critical path for school delivery.”

Chair Hawkins asks: “Will the schools help us reach our sustainability targets as set forth in PGCPs’ Climate Action Plan? If not, please explain what other actions can be taken?”

Mr. Washington responds: “Yes, all of the schools will be solar and EV charging ready and the program is currently exploring a solar panel array pilot. These are initial steps that will help insure that these schools are helping us meet our requirements under the climate change action.”

### **Public Comments:**

There are no public comments at this time.

### **Non-Agenda Items:**

There are no non-agenda items at this time.

### **Next Steering Committee Meeting:**

Wednesday 9/14/2022
