LEARN MORE ABOUT SPECIALTY PROGRAMS

Career and Technical Education (CTE)

Creative, Visual & Performing Arts

CTE programs offer skills, technical knowledge, academic foundation and real-world experiences to prepare for college or high-skill, high-demand and high-wage careers!

Creative, visual and performing arts programs develop interests and talents through creativity, artistic expression, self-discipline, critical thinking skills and an appreciation for cultural diversity.

Applications

[Learn More](#)

[Learn More](#)

3D Scholars

The name "3D" stands for the three degrees earned in the program: high school diploma, associate's degree (Prince George's Community College) and bachelor's degree (University of Maryland Global Campus). Only 50 seats are available for incoming ninth graders.

Academy of Health Sciences and Teacher Preparation Program

The Academy of Health Sciences at Prince George's Community College offers two pathways to an associate degree. Upon graduation, students earn a high school diploma and an associate degree in either General Studies with a concentration in Health Sciences or Arts in Teaching.

[Learn More](#)

Aerospace Engineering and Aviation Technology

Design, research and innovate with a focus on STEM through the lens of aerospace engineering and aviation technology. All interested PGCPS eighth-graders will be considered for admission.

[Learn More](#)

International Baccalaureate (IB)

IB offers an opportunity to earn an International Diploma and receive college credits that are accepted at numerous universities and colleges globally.

[Learn More](#)

P-TECH

Through the Pathways in Technology Early College High School (P-TECH) program, students can earn both a high school diploma and a two-year associate's degree in six years or less at no cost. High-demand industry pathways include Health and Technology and Hospitality Management.

[Learn More](#)

Science and Technology

The Science and Technology Program (S&T) exposes scholars to a rigorous four-year high school course of study that provides broad and intensive college-level academic experiences, with content and application focused on science, technology, engineering and mathematics (STEM). Students solve real-world problems and build pertinent skills to explore, design, research and innovate as they prepare for an exciting future.

NEWS AND ANNOUNCEMENTS

Take the Climate & Culture Survey by Oct. 31!

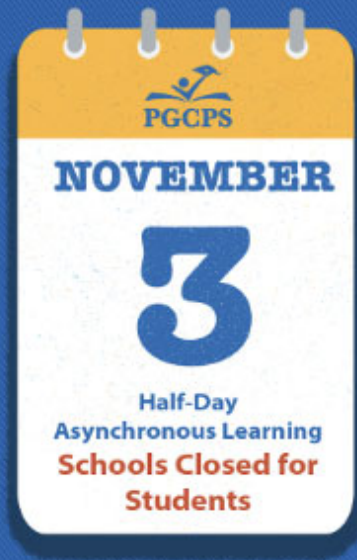

Students, families and staff are encouraged to share their PGCPs experiences, perceptions and ideas through the [Culture & Climate Survey](#).

We'd like to hear from more of you before Tuesday, October 31. Please take 5-10 minutes to share your feedback with us! **We do not collect names or email addresses on the survey – it's truly anonymous.**

Everyone who completes the survey can enter a drawing for a \$50 gift card. For questions, please contact strategicplanning@pgcps.org.
