## Home Teaching Tips...

As holiday and fall breaks approach, these strategies are some ways to continue learning even while everyone is away from school!

These strategies are intended to help increase your child's understanding of math skills and to develop their confidence in learning:

- Problem Solving - encourage your child to figure out answers to real - life situations. ( example: **"We have one can of tuna and we need five. How many more do we need to buy?"**)
- Computation - count and pair objects found around the house and determine whether there is an odd or even number of items.

## Upcoming Events

Early Dismissal: November 1

No school: November 5

Thanksgiving Break: November 27 - 29

## After School Activities

- Extended Learning Opportunity ( ELO ) - every Tuesday and Thursday from 4:00 - 6:00 pm.

## Reminders

5th Grade Field trip to the Aquarium next Monday.

I Ready Math Diagnostic Testing is ongoing.
